

{Photo Book Prep Form}

A LITTLE ADVANCED PLANNING MAKES A PHOTO BOOK A SIMPLE PROJECT

The Photo Kiosk at my Photo Store helped me create a photo book of my trip in under an hour!!

Here are the steps I followed that made it so easy:

1. I organized my photos on my home computer.
2. Jotted down ideas on the Page by Page Design Worksheet.
3. In the store, I selected my book cover and size.
4. Then filled in photos and text on the kiosk

{How to Organize Photos}

Collect all of the photos for your book in a folder on your computer, then label each photo in the order you want them to appear in your book – like this:

01_day one with sandy.jpg

Don't Forget: You can scan in tickets, itineraries and brochures. When adding scanned items to the book, I treated each one like a photo. I also marked on the Page by Page Design Worksheet where I wanted to add memorabilia.

{Variety of Photo Book Styles}

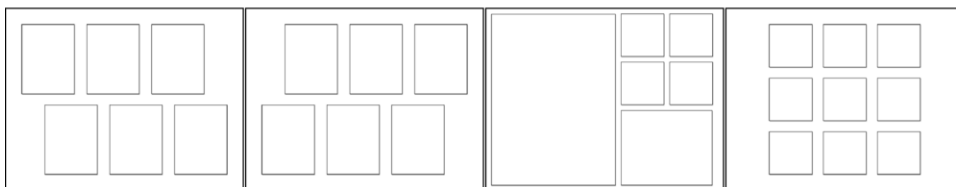

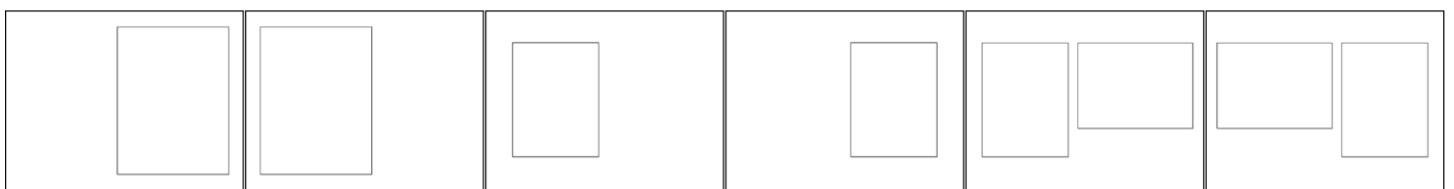

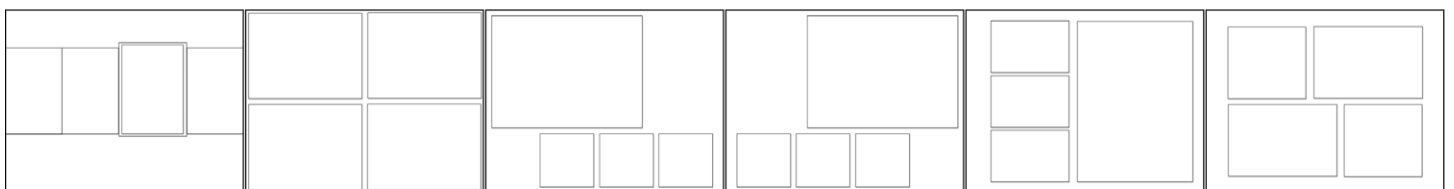

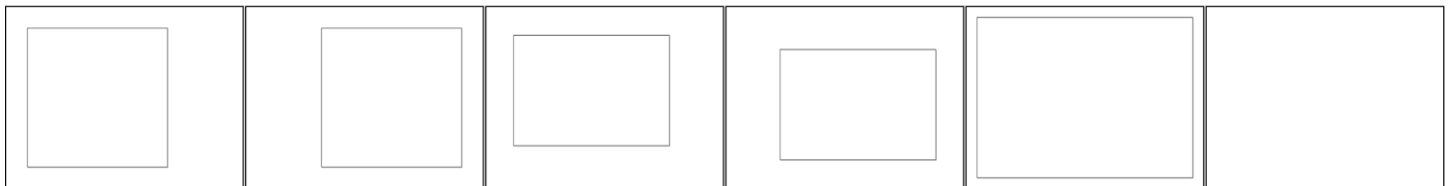

I made an 11x8.5 hardbound book with a dust jacket for my coffee table. I also made a "flip book" for each of my friends. The flip book uses the first page as the cover and is perfect for passing around to friends and using as little keepsakes. I am

thinking about taking my favorite pictures and making a purse for mom's Birthday Present!

{ Photo Book Page Layouts }

New Layouts and Themes are added regularly!

A Few Theme Ideas

| | |
|----------|---------|
| Birthday | Holiday |
| Beach | Family |
| Summer | Sports |
| Wedding | School |
| Baby | Teen |
